

JAMIE WILSON
DIRECTOR OF LOSS CONTROL

James “Jamie” has 20 years of industry experience in transportation safety and day-to-day truck and bus fleet operations. As the Director of Loss Control for RLI Transportation, he is responsible for providing loss control services to fleet owners and managers. These specialized services allow our customers to reduce their loss frequency and severity so they can improve their bottom line. A graduate of Athens State University, he has a bachelor’s degree in Management. He has many years of specialized expertise in safety program development and administration for motor freight/trucks and motor coach/buses. In addition, Jamie has extensive experience in the evaluation of hazardous materials regulations and implementing telematics platforms with customers.
